Title 49 CFR, Appendix C, Section (3)(iv) requires that “the location of projects requiring land acquisition and the displacement of persons from their residences and business may not be determined on the basis of race, color, or national origin.” For purposes of this requirement, “facilities” does not include bus shelters, as they are considered transit amenities. It also does not include transit stations, power substations, or any other project evaluated by the National Environmental Policy Act (NEPA) process. Facilities included in the provision include, but are not limited to, storage facilities, maintenance facilities, operations centers, etc. In order to comply with the regulations, Effingham County will ensure the following:

1. Effingham County will complete a Title VI equity analysis for any facility during the planning stage with regard to where a project is located or sited to ensure the location is selected without regard to race, color, or national origin. Effingham County will engage in outreach to persons potentially impacted by the siting of the facility. The Title VI equity analysis must compare the equity impacts of various siting alternatives, and the analysis must occur before the selection of the preferred site.
2. When evaluating locations of facilities, Effingham County will give attention to other facilities with similar impacts in the area to determine if any cumulative adverse impacts might result. Analysis should be done at the Census tract or block group level where appropriate to ensure that proper perspective is given to localized impacts.
3. If Effingham County determines that the location of the project will result in a disparate impact on the basis of race, color, or national origin, Effingham County may only locate the project in that location if

there is a substantial legitimate justification for locating the project there, and where there are no alternative locations that would have a less disparate impact on the basis of race, color, or national origin. Effingham County must demonstrate and document how both tests are met. Effingham County will consider and analyze alternatives to determine whether those alternatives would have less of a disparate impact on the basis of race, color, or national origin, and then implement the least discriminatory alternative.

Effingham County has not recently constructed any facilities but is in the beginning stages of planning for a new maintenance facility. Effingham County does not have any Title VI Equity Analysis reports to submit with this Plan.

Public Participation Plan (PPP)

Effingham County participates and ensures through our county appointed Program Compliance Oversight Monitor that public participation is carried out through the subrecipient's participation plan as stated in this appendix.

Mobility Manager(s) stay in contact with community organizations within our service area on a regular basis to stay informed of community needs. This contact is maintained in personal visits to area service agencies and monthly/quarterly meetings in Illinois Regions 7,8,9,10. During these community contact opportunities, our Mobility Managers report on our services, provide resource materials regarding our program, and receive feedback from service providers on their clients needs/trends in public transportation needs. Our Mobility Managers are also available upon request to provide presentation on our services to any social group or service agency requesting such presenters.

Central Illinois Public Transit holds quarterly Public Advisory Meetings in each service county. These meetings include our Program Compliance Oversight Monitors, service agency representatives, low income and disabled property managers, riders, and general public. Public attendees are strongly encouraged to attend, and the meetings are promoted through social media, the Chamber of Commerce, and interagency email lists, and posted fliers throughout the community.

Annually, Central Illinois Public Transit conducts customer satisfaction surveys and reports the results to the C.E.F.S. Board of Directors and the Program Compliance Oversight Monitor. The surveys assess rider satisfaction with CIPT services in areas such as affordability, reliability, ease of scheduling, and rider reported obstacles to fulfilling transportation needs. These surveys allow us to assess the demographics of our riders,, trip purpose, and areas in need of improvement.

Monthly reports are made to the C.E.F.S Board of Directors, the Effingham County PCOM, and the Effingham County Board. These reports include information on unduplicated riders, trip units, revenue and expenses, service denial reports, and service contracts.

CIPT holds an annual public hearing for public IDOT grant application review and input. Meetings are posted in local newspapers, on social media, and on the CIPT website at www.cefseoc.org. The Effingham County PCOM also attends these meetings to ensure the meetings are held by the sub-recipient. Hearings are also posted on the Effingham County website at www.co.effingham.il.us.
