XII. Studies on Governmental Efficiencies

In preparing this report, we reviewed several studies on local government efficiency. These studies show that:

- The average local government in Illinois serves 1800 residents compared to the national median of 2850 individuals
- Most townships in Illinois have no bonded indebtedness. Together with road districts they are an integral element of local democracy. Township expenditures have grown at a lower rate than those of any other level of government since 1992.
- Townships have lower labor costs and employ mostly part time employees.

Without the services of the Township Road District the Township community residents would not have the conveniences of safe, well maintained road surfaces. The Road District patch, oil, rock and repair the roads at all times throughout the year. The wintertime, the roads are plowed, salt/sanded, and kept open for safe traveling for all, including emergency vehicles. The culverts are maintained for good water drainage and to keep the water off the roadways. Mowing is done on all roads to keep roadway visibility clear and the appearances of the community maintained. The Road District is also continuously maintaining various trash and items left on the roadsides and ditches.

XIII. Our committee's recommendations regarding Increased Accountability and Efficiency:

Note: This Report must be filed with your County no later than 18 months after your first committee meeting.
